CHRISTINE JENKINS has been an advocate for many years and most recently around issues related to late female diagnosis, gender bias, and autistic aging. Currently a community research associate at Carleton University, she is a co-author of the anthology *Spectrum Women: Walking to the Beat of Autism* (2018) and has presented in Canada and internationally. Jenkins has been a peer reviewer for the journal *Autism in Adulthood* and edits other books and articles. As she states, "Our aim is to help include autistic voices at every stage in true co-production of research." Jenkins recently started a business, the Christine Jenkins AUsome Consulting, at www.cjAUsome.ca.

VIBHA KAUSHIK, PHD, RSW, is a registered social worker in Alberta and a postdoctoral associate in the Faculty of Social Work at the University of Calgary currently working on two partnership projects: (1) Transforming the Field Education Landscape and (2) Aging in the Right Place. In addition, she teaches undergraduate and graduate courses in the Faculty of Social Work at the University of Calgary. Her current research interests include social work with newcomers, newcomer settlement and integration, homelessness and housing insecurity among older immigrants, and mixed-methods research. She has several peer-reviewed publications as first

author and has presented her work at multiple national and international peer-reviewed conferences to academic and community-based audiences.

EDWARD KING is an adult who is autistic. He was diagnosed at the age of 3 and had trouble speaking. At that time, doctors said that Edward had a 50% chance of never speaking, but he overcame that challenge. After graduating from Algonquin College, he has had two jobs: working for the City of Ottawa as a custodian and weight room attendee, and at a fitness gym as a custodian. At times, he assists adults who have special needs and physical disabilities at summer camps and social nights through the City of Ottawa. Since 2011, Edward has gone to schools — from grade two to high school — and attended adult audiences at workshops to talk about overcoming challenges, bullying, and autism. Today, Edward volunteers with OAAI and is willing to help out individuals to have better futures. He enjoys biking, running, walking, listening to music, and hanging out with friends.

KALTRINA KUSARI is a PhD Candidate in the Faculty of Social Work at the University of Calgary. Her current research focuses on the experiences of return migrant women to Kosova, where she is from. She has also been involved with research projects which focus on refugee resettlement in Canada and has co-developed a training program for service providers who serve immigrants with disabilities. Her research informs her practice, her role as a field supervisor for practicum students, and her teaching at both University of Calgary and Athabasca University.

Social work field education in Canada is in crisis. New understanding and approaches are urgently needed. Innovative and sustainable models need to be explored and adopted. As professionals, social workers are expected to use research to inform their practice and to contribute to the production of research. Yet many social workers are reluctant to integrate research into their practice and into field education.

Transforming Social Work Field Education encourages the adoption of research and scholarship into the practice of social work. It offers current theoretical concepts and perspectives that shape social work field education and provides case studies of practice research grounded in the experiences of diverse communities and countries. Highlighting cutting-edge research and scholarship, each chapter addresses critical issues in social work practice and their implications for field education.

Bringing together scholars at various stages of their careers, this book fosters a meaningful dialogue on the dynamic, complex, and multi-faceted nature of social work practice, research, and innovation in the critical area of field education.
